

Renewable World Ethical Statement

Version 1.0 Approved by the Board of Renewable World on 21st August 2018

At Renewable World (henceforth known as “**RW**”), we are committed to conducting work that is ethical, legal and consistent with our values and mission. RW commits to abide by the UN Global Compact's (<http://www.unglobalcompact.org/>) ten principles in the areas of human rights, labour, the environment and anti-corruption. All its employees, volunteers, and consultants (henceforth known as **Personnel**), will act in accordance to these principles in all areas of their work, when representing RW.

We seek to act ethically in all areas of our work including fundraising, project delivery, communication, financial management, and governance. We are governed by a series of policies and commitments which meet these principles.
