

# Earth Wind & Tyre: A Renewable World Challenge

## Event COVID-19 Policy and Statement

### Statement: 26.11.20

Based on the current guidance set out by the [Government](#), the [National Outdoor Events Association](#) and [British Cycling](#) we are confident that the *Earth Wind & Tyre* one-day cycling challenge will take place in a COVID-secure environment on Saturday 5<sup>th</sup> June 2021.

As we embark upon planning the operations for this truly amazing event, our COVID-19 risk assessment and policy will detail the methods and precautions that we understand play a substantial factor in preventing the spread of Coronavirus. This will include increased attention to hand hygiene, ventilation, physical distancing, cleaning, PPE, symptom checks, contact tracing, risk communication and reducing contact.

Once complete, our event COVID-19 policy will be published on our website and sent to all participants upon registration. This document will detail measures that we hope will not have to be enforced at the time of the event, but that we will plan for regardless should the virus be as prevalent by Summer 2021. The policy is not exhaustive and, from time to time, may be amended in line with future guidance.
